

	Frequently Asked Question	Answer
1	Why Green Pin?	<p>Globally the word 'Green' is now associated with strategies for protecting; restoring and enhancing the diminishing forest cover and responding to climate change. The belief is that by going green and conserving energy, businesses can improve their operational efficiencies, achieve greater productivity internally and enhance business services for customers.</p> <p>The Green PIN model will save paper being used in printing pin mailers thus contributing to earth's environment as well as helping to reduce the carbon foot print of our Bank. It will also help our customers to show participation in the Green India drive.</p>
2	What is Green PIN?	<p>Green PIN is in form of a One Time Password (OTP) which is received by a customer on his registered mobile*.</p> <p>The features of the Green Pin are:</p> <ul style="list-style-type: none"> a) It is an OTP of 6 numeric digits b) It is valid for 72 hours from its delivery and c) It can be used only once.

 Frequently Asked Question	Answer

OTP will be automatically <u>delivered after 4 hours of verification</u> in DCARD.	3	If Mobile number updated in old account on say 15-09-2016 and debit card issued on 15-09-2016.	OTP will be automatically <u>delivered next day after verification</u> in DCARD.
S NO	Scenarios	OTP delivery time (on customer's registered mobile number)												
1	<u>Existing accounts</u> where mobile number is already registered	OTP is generated on the real time basis when debit card is verified by branch in DCARD and <u>delivered immediately</u> .												
2	If Account opened & card issued on the same day.	OTP will be automatically <u>delivered after 4 hours of verification</u> in DCARD.												
3	If Mobile number updated in old account on say 15-09-2016 and debit card issued on 15-09-2016.	OTP will be automatically <u>delivered next day after verification</u> in DCARD.												
10	Customer has not received OTP even after debit card verification in DCARD considering the scenarios given above? What shall branch do?	<p>Branch official to check whether customer mobile number is correctly available in ALERTS menu option. If it is not properly entered or old mobile number is present, delete old mobile number & feed in customer new mobile number in ALERTS after taking request from customer.</p> <p>After updation of mobile number in ALERTS, customer should be guided to send SMS DCPIN space <CARD NUMBER> to 5607040 or 9264092640</p> <p>In such cases OTP generation and delivery will be on next day.</p>												

	Frequently Asked Question	Answer
11	What are other Cases when OTP may not get generated?	
a.	Mobile number is already correctly available in ALERTS but still OTP is not received for new debit card / Duplicate PIN generation.	<p>SPSD call should be opened immediately with request for updation of customer mobile number at ATM switch.</p> <p>Note: For an early response, in SPSPD please select Debit Card Cell HO (as Incident Area and Group).</p>
b.	Debit card is inactive.	<p>An inactive debit card is a card which has not been verified/ linked to customer account at branch level.</p> <p>Branch dealing official to ensure that customer debit card is activated immediately through DCARD menu option at the time of handing over the card to customer.</p> <p>If customer sends SMS DCPIN space <CARD NUMBER> to 5607040 or 9264092640 from other than registered mobile number, OTP will not generate and customer will receive the SMS “Card number entered by you in SMS is not registered against this mobile number. Please recheck or visit nearby branch for details.”</p>
c.	Debit card is hotlisted by customer.	OTP cannot be generated for hotlisted debit cards.
d.	Debit card is temporarily blocked for the day due to multiple times wrong entry of PIN.	<p>If a customer tries to do transaction with wrong PIN for 3 times, the system for security reasons <u>blocks</u> the debit card <u>temporarily for the day</u>.</p> <p>Debit card gets activated next date automatically.</p> <p>System will only allow OTP generation for active debit cards i.e. if debit card is temporarily blocked by system, customer has to wait for next date for OTP generation by sending SMS to DCPIN space <CARD NUMBER> to 5607040 or 9264092640.</p>
12	Whether Green Pin OTP is mandatory for PIN setting through PNB ATMs/ IBS?	<p>Yes. Customer should have OTP with him/her before doing the Debit Card PIN setting steps at PNB ATMs/ Internet Banking retail account.</p> <p>Note: It has been observed that customers are trying to set PIN through PNB ATMs/ IBS login account without having OTP with them. Branch staff is requested to guide the customer that OTP is mandatory for PIN setting through ATMs/IBS account.</p>

	Frequently Asked Question	Answer
13	<p>Customer has received the Green Pin OTP on registered mobile number, how can he/she set the PIN for debit card?</p>	<p><u>Green Pin OTP is valid for 72 hours from delivery time.</u> Customer can set the debit card PIN using Green Pin OTP at PNB ATMs or through Internet banking account (POST LOGIN).</p> <p><u>Process is as under:</u></p> <p><u>PIN setting at PNB ATMs using Green Pin OTP (OTP already available with customer):</u></p> <ol style="list-style-type: none"> 1. Swipe debit card at any PNB ATM machine. 2. Select <u>“ENTER GREEN PIN (OTP)”</u> 3. ATM screen will prompt you to enter 6 digit OTP which is already delivered on the registered mobile number. 4. Enter 6 digit OTP and press <u>OK</u>. 5. ATM screen will prompt you to enter 4 digit number of your choice as PIN of debit card and press OK. 6. Please re-enter the same 4 digit number again for confirmation of PIN. 7. If entry of 4 digit number matches in both cases, system will store this as PIN and you will get the confirmation message on ATM screen - <u>“Thank you, your PIN has been set successfully. Please do not share it with anyone”</u>. <p><u>PIN setting through Retail Internet Banking Account using Green Pin OTP (OTP already available with customer):</u></p> <ol style="list-style-type: none"> 1. Login to Internet Banking retail account. 2. Post login, click on <u>Value Added Services</u>→<u>Set/Reset debit card PIN</u>. 3. Select the account number to which card is attached and press <u>Continue</u>. 4. System will prompt for <u>Card Number</u>, <u>Expiry Date</u> (i.e. Month & Year) and 6 digits OTP delivered on customer registered mobile number. 5. Enter above information and click <u>Submit</u>. 6. After successful validation of customer above credentials, IBS screen will prompt customer to enter and re-enter 4 digit number of his/her choice as PIN of debit card. 7. If entry of 4 digit number matches in both cases, system will store this as PIN and customer will get the confirmation message on IBS screen: 8. <u>“Thank you, your PIN has been set successfully. Please do not share it with anyone”</u>.
