

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

(CONSOLIDATED)

Table DF-1: Scope of Application

(i) Qualitative Disclosures:

Top bank in the group

Punjab National Bank (herein after referred to as the 'Bank') is the top bank in the group to which the Capital Adequacy Framework under Basel III applies. The Bank has three domestic and two international subsidiaries which together constitute the Group in the context of Consolidated Financial Statements (CFS).

The Bank has three domestic subsidiaries, namely:

- i) PNB Gilts Ltd.
- ii) PNB Investment Services Ltd.
- iii) PNB Cards and Services Ltd.*

The Bank has two international subsidiaries, namely:

- i) Punjab National Bank (International) Limited (PNBIL), UK
- ii) Druk PNB Bank Ltd., Bhutan

*However, PNB Cards and Services Ltd. has not been considered for Consolidated Financial Statements (CFS) as per Reserve Bank of India (RBI) guidelines as the same does not fall under the Scope of regulatory consolidation.

Further, PNB Insurance Broking Pvt. Ltd. is non-functional, the Broking license has been surrendered, capital stands extinguished and liquidator shall be completing the necessary formalities to conclude the winding up procedure.

The Bank is not directly involved in insurance activity. However, Bank has invested in the share capital in the following insurance related Subsidiaries/Associates.

S. No.	Name of the company	Country of Incorporation	Status	Proportion of ownership
1.	PNB MetLife India Insurance Company Ltd.	India	Associate	30 %
2.	Canara HSBC Oriental Bank of Commerce Life Insurance Co. Ltd.	India	Associate	23 %

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

a. List of group entities considered for consolidation

(i) All the group entities as mentioned above are considered for consolidation under accounting scope of consolidation.

(ii) All the subsidiaries except associates/JVs, insurance and non-financial subsidiaries as mentioned above are considered for consolidation under regulatory scope of Consolidation. Regulatory scope of consolidation refers to consolidation in such a way as to result in the assets of the underlying group entities being included in the calculation of consolidated risk- weighted assets of the group.

Name of the entity & Country of incorporation	Whether the entity is included under accounting scope of consolidation (Yes/No)	Method of consolidation	Whether the entity is included under regulatory scope of consolidation (Yes/No)	Method of consolidation	Reasons for difference in the method of consolidation	Reasons for consolidation under only one of the scopes of consolidation

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

Table DF-2: Capital Adequacy

(a) (i) Qualitative Disclosures:

1. Capital Adequacy

The bank believes in the policy of total risk management. The bank views the risk management function as a holistic approach whereby risk retention is considered appropriate after giving due consideration to factors such as specific risk characteristics of obligor, inter relationship between risk variables and corresponding return and achievement of various business objectives within the controlled operational risk environment. Bank believes that risk management is one of the foremost responsibilities of top/ senior management. The Board of Directors decides the overall risk management policies and approves the Risk Management Philosophy & Policy, Credit Management & Risk policy, Investment policy, ALM policy, Operational Risk Management policy, Policy for internal capital adequacy assessment process (ICAAP), Credit Risk Mitigation & Collateral Management Policy, Stress Testing Policy and Policy for Mapping Business Lines/Activities, containing the direction and strategies for integrated management of the various risk exposures of the Bank. These policies, inter alia, contain various trigger levels, exposure levels, thrust areas etc.

The bank has constituted a Board level subcommittee namely Risk Management Committee (RMC). The committee has the overall responsibility of risk management functions and oversees the function of Credit Risk Management Committee (CRMC), Asset Liability Committee (ALCO), Market Risk Management Committee (MRMC) and Operational Risk Management Committee (ORMC). The meeting of RMC is held at least once in a quarter. The bank recognizes that the management of risk is integral to the effective and efficient management of the organization.

2.1. Credit Risk Management

2.1.1 Credit Risk Management Committee (CRMC) headed by MD & CEO is the top-level functional committee for Credit risk. The committee considers and takes decisions necessary to manage and control credit risk within overall quantitative prudential limit set up by Board. The committee is entrusted with the job of approval of policies on standards for presentation of credit proposal, fine-tuning required in various models based on feedbacks or change in market scenario, approval of any other action necessary to comply with requirements set forth in Credit Risk Management Policy/ RBI guidelines or otherwise required for managing credit risk.

2.1.2 In order to provide a robust risk management structure, the Credit Management and Risk policy of the bank aims to provide a basic framework for implementation of sound credit risk management system in the bank. It deals with various areas of credit risk, goals to be achieved, current practices and future strategies. As such, the credit policy deals with short term implementation as well as long term approach to credit risk management. The policy of the bank embodies in itself the areas of risk identification,

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

risk measurement, risk grading techniques, reporting and risk control systems / mitigation techniques and documentation practice.

Zonal Risk Management Cells (ZRMCs) have been set up at zonal level as an extended arm of HO: IRMD to inculcate risk culture at field level in line with Risk Philosophy of the Bank. The new risk assessment structure focuses on complete segregation of credit risk assessment system from credit underwriting by centralizing the risk rating process parallel to Zonal Level under direct control of Integrated Risk Management Division at Head Office, whereas the credit delivery system shall continue through business delivery structure of credit verticals and zones. The segregation of processes had been introduced to create an independent efficient risk assessment and third eye view based calculation of risk over a borrowing entity.

For better support, control & transparent structure of reporting, organization structure in the bank has been revamped. In this regard, bank has introduced specialized lending branches for catering to loans from Rs 10 lacs to Rs 1 Crore through PNB Loan Point (PLP) in respect of Retail, Agriculture and MSME segments. Mid Corporate Centres (MCC) shall sanction corporate loans above 1 crore upto 10 crore. Corporate Banking Branches (CBBs) shall handle Non Retail Credit proposals above Rs. 10 Crores. LCB & ELCBs for loans above 50 crores has been put in place. All loan proposals falling under the powers of MCC, Zonal Office and Head office are considered by Credit approval Committees.

2.1.3 Bank has developed comprehensive risk rating system that serves as a single point indicator of diverse risk factors of counterparty and for taking credit decisions in a consistent manner. The risk rating system is drawn up in a structured manner, incorporating different factors such as borrower's specific characteristics, industry specific characteristics etc. Risk rating system is being applied to the loan accounts with total limits above Rs.50 lac. Bank is undertaking periodic validation exercise of its rating models and also conducting migration and default rate analysis to test robustness of its rating models.

Small & Medium Enterprise (SME), Retail advances and lending to agriculture are subjected to Scoring models which support "Accept/ Reject" decisions based on the scores obtained. All SME, Retail loan and Agriculture lending applications are necessarily to be evaluated under score card system.

Recognizing the need of technology platform in data handling and analytics for risk management, the bank has placed rating/ scoring systems at central server network. All these models can be accessed by the users 'on line' through any office of the bank.

For monitoring the health of borrowal accounts at regular intervals, bank has put in place a tool called PNB SAJAG - Early Warning Signal + Preventive Monitoring System (EWS+PMS) for detection of early warning signals to address the issue of monitoring of causes of build-up of stress in assets with a view to prevent/minimize the loan losses.

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

Bank has also implemented EWS for Retail & MSME segment (exposure up to Rs.1 Crore) through subscription to the services of M/s TransUnion CIBIL Ltd wherein on change in credit profile of retail borrowers & MSME borrowers (exposure up to Rs.1 Crore) with our/other banks, triggers are being generated on daily basis and sent to field functionaries for taking necessary action.

2.1.4 Bank has implemented enterprise-wide data warehouse (EDW) project, to cater to the requirement for the reliable and accurate historical data base and to implement the sophisticated risk management solutions/ techniques and the tools for estimating risk components {PD (Probability of Default), LGD (loss Given Default), EAD (Exposure at Default)} and quantification of the risks in the individual exposures to assess risk contribution by individual accounts in total portfolio and identifying buckets of risk concentrations.

2.1.5 As an integral part of Risk Management System, bank has put in place a well-defined Loan Review Mechanism (LRM). This helps bring about qualitative improvements in credit administration. A separate Division known as Credit Audit & Review Division has been formed to ensure LRM implementation.

2.1.6 The risk rating and vetting process is done independent of credit appraisal function to ensure its integrity and independency. The rating category wise portfolio of loan assets is reviewed on quarterly basis to analyze mix of quality of assets etc.

2.1.7 The bank has implemented the Standardized Approach of credit risk as per RBI guidelines and further we are in the process of adoption of Internal Rating Based Approaches (IRB). Bank has received approval from RBI for adoption of Foundation Internal Rating Based Approach (FIRB) on parallel run basis w.e.f. 31.07.2013. Further, bank has placed notice of intention to RBI for implementing Advanced Internal Rating Based (AIRB) approach for credit risk.

Major initiatives taken for implementation of IRB approach are as under:

- For corporate assets class, bank has estimated PD based upon model wise default rates viz. Large Corporate and Mid Corporate borrowers using Maximum likelihood estimator (MLE). For retail asset class, PD is computed for identified homogeneous pool by using exponential smoothing technique.
- LGD (Loss Given Default) values have been calculated by using workout method for Corporate Asset Class as well as for each homogenous pool of Retail Asset Class.
- Bank has also put in place a mechanism to arrive at the LGD rating grade apart from the default rating of a borrower. The securities eligible for LGD rating are identified facility wise and the total estimated loss percentage in the account is

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

computed using supervisory LGD percentage prescribed for various types of collaterals and accordingly LGD rating grades are allotted.

- Mapping of internal grades with that of external rating agencies grades: Bank has mapped its internal rating grades with that of external rating agencies grades. This exercise helps in unexpected loss calculation and PD estimation.
- Benchmarking of Cumulative Default Rates: Benchmark values of cumulative default rates for internal rating grades have been calculated based on the published default data of external rating agencies. The benchmark values is used for monitoring of cumulative default rates of internal rating grades and PD validation.
- Bank has adopted supervisory slotting criteria approach for calculation of capital under specialised lending (SL) exposure falling under corporate asset class.
- Bank has put in place a comprehensive "Credit Risk Mitigation & Collateral Management Policy", which ensures that requirements of FIRB approach are met on consistent basis.

2.2 Market Risk & Liquidity Risk

2.2.1 The investment policy covering various aspects of market risk attempts to assess and minimize risks inherent in treasury operations through various risk management tools. Broadly, it incorporates policy prescriptions for measuring, monitoring and managing systemic risk, credit risk, market risk, operational risk and liquidity risk in treasury operations.

2.2.2 Besides regulatory limits, the Bank has put in place internal limits and ensures adherence thereof on continuous basis for managing market risk in trading book of the bank and its business operations. Bank has prescribed entry level barriers, exposure limits, stop loss limits, VaR limits, Duration limits and Risk Tolerance limit for trading book investments. Bank is keeping constant track on Migration of Credit Ratings of investment portfolio. Limits for exposures to Counterparties, Industry Segments and Countries are monitored. The risks under Forex operations are monitored and controlled through Stop Loss Limits, Overnight limit, Daylight limit, Aggregate Gap limit, Individual Gap limit, Value at Risk (VaR) limit, Inter-Bank dealing and investment limits etc.

The LCR requirement has become binding on the banks from January 1, 2015 with the following minimum required level as per the time-line given below:

	Jan 1, 2015	Jan 1, 2016	Jan 1, 2017	Jan 1, 2018	Jan 1, 2019
Minimum LCR	60%	70%	80%	90%	100%

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

For Q2 FY'2021-22, the daily average LCR was 198.54% (based on simple average of daily observations) at consolidated level, as against the regulatory requirement of 100%.

The main drivers of LCR of the bank are High Quality Liquid Assets (HQLAs) to meet liquidity needs of the bank at all times and basic funding from retail and small business customers. The retail and small business customer's contribute about 72.15% of total deposit portfolio of the bank which attracts low run-off factor of 5/10% as on 30.09.2021.

2.3 Operational Risk:

(i) Qualitative Disclosures:

Operational Risk:

The bank adopts three lines of defense for management of operational risk.

The first line of defence for Operational Risk is represented by various HO Divisions which are Control Units (CU), Business Units (BU) or Support Units (SU). The HO Divisions being owner of various banking activities, take up management of operational risks within their owned activities, undertake actions for management/mitigation of these risks and take any business line/division level decisions with respect to operational risk. They propagate ORM policies as laid down by the Board. They analyse the findings of RCSA, KRIs & loss events and initiate action for strengthening of internal processes, management/ mitigation of Operational Risk and explore use of insurance and other mitigating options.

Second Line of defence i.e. independent Corporate Operational Risk Management Function (CORF) is represented by RMC, ORMC, Group Chief Risk Officer and Operational Risk Management Department (ORMD) which are collectively responsible for framing the Operational Risk Framework/Policy and ensuring implementation thereof. ORMD also acts as a repository of Operational Risk Loss Data Base, KRIs, RCSA Surveys results, Scenario Analyses and used the same for root cause analyses, Operational Risk Management and Measurement. Certain information collected and published by Control Units like Inspection & Audit Division, Management Audit & Review Division, Fraud Risk Management Division and Security Department etc. are used to identify, control, monitor and mitigate the operational risk at Bank wide level.

The Third line of defence represented by Inspection & Audit Division/ Management Audit & Review Division (IAD / MARD) which are responsible for independent review and validation of Operational Risk Management Framework (ORMF) and Operational Risk Management System (ORMS) at bank wide level.

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

Operational Risk Management Committee (ORMC) headed by Executive Director looking after Integrated Risk Management Division (IRMD) along with all the other EDs and CGMs / GMs of various divisions as members is the Executive level committee to oversee the entire operational risk management of the bank. All the operational risk aspects like analysis of historical internal loss data (including near miss events, attempted frauds & robberies, external loss events), etc. are placed to the ORMC on quarterly basis. Risk Description Charts (RDCs) and Business Environment & Internal Control Factors (BEICFs) in the form of Risk & Control Self Assessments (RCSAs), Key Risk Indicators (KRIs) are also used to ascertain the inherent and residual risks in various activities and functions of the bank and initiating necessary corrective actions with respect to management/mitigation of the operational risks.

Internal Control is an essential pre-requisite for an efficient and effective operational risk management. Bank has clearly laid down policies and procedures to ensure the integrity of its operations, appropriateness of operating systems and compliance with the management policies. The internal controls are supplemented by an effective audit function that independently evaluates the control systems within the organization.

Table DF- 3: Credit Risk: General Disclosures

(i) Qualitative Disclosures:

(a)

3.1 Any amount due to the bank under any credit facility is overdue if it is not paid on the due date fixed by the bank. Further, an impaired asset is a loan or an advance where:

- (i) Interest and/or installment of principal remains overdue for a period of more than 90 days in respect of a term loan.
- (ii) The account remains out of order in respect of an overdraft/cash credit for a period of more than 90 days.

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

Account will be treated out of order, if:

- The outstanding balance remains continuously in excess of the limit/drawing power.
- In cases where the outstanding balance in the principal operating account is less than the sanctioned limit/drawing power, but there are no credits continuously for 90 days as on the date of balance sheet or credits are not enough to cover the interest debited during the same period
- (iii) In case of bills purchased & discounted, the bill remains overdue for a period of more than 90 days
- (iv) The installment or principal or interest thereon remains overdue for two crop seasons for short duration and the installment of principal or interest thereon remains overdue for one crop season for long duration crops in case of Agricultural loans.

Credit approving authority, prudential exposure limits, industry exposure limits, credit risk rating system, risk based pricing and loan review mechanisms are the tools used by the bank for credit risk management. All these tools have been defined in the Credit Management & Risk Policy of the bank. At the macro level, policy document is an embodiment of the Bank's approach to understand measure and manage the credit risk and aims at ensuring sustained growth of healthy loan portfolio while dispensing the credit and managing the risk.

(ii) Quantitative Disclosures

Table DF- 4 - Credit Risk: Disclosures for Portfolios Subject to the Standardized Approach

Qualitative Disclosures:

(a)

4.1. Bank has approved the following seven domestic credit rating agencies accredited by RBI for mapping its exposure with domestic borrowers under standardized approach of credit risk.

- Brickwork
- CARE
- CRISIL
- ICRA
- India Ratings
- Acuite (Erstwhile SMERA)
- INFOMERICS

Bank has also approved the following three international credit rating agencies accredited by RBI in respect of exposure with overseas borrowers.

- FITCH
- Moody's
- Standard & Poor

These agencies are being used for rating (Long Term & Short Term) of fund based/ non fund based facilities provided by the bank to the borrowers. The bank uses solicited rating from the chosen credit rating agencies.

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

The ratings available in public domain are mapped according to mapping process as envisaged in RBI guidelines on the subject.

(ii) Quantitative Disclosures:

(b) For exposure amounts after risk mitigation subject to the standardized approach, amount of a bank's outstanding (rated and unrated) in the following three major risk buckets as well as those that are deducted are as under:

(Rs. in million)

Particulars	30.09.2021
i) Below 100% risk weight exposure outstanding	7332571.25
ii) 100% risk weight exposure outstanding	1276340.78
iii) More than 100% risk weight exposure outstanding	540774.59
iv) Deducted	0.00

Table DF-5: Credit Risk Mitigation: Disclosures for Standardized Approaches

Qualitative Disclosures:

(a)

5.1. Bank has put in place Board approved 'Credit Risk Mitigation and Collateral Management Policy' which, inter alia, covers policies and processes for various collaterals including financial collaterals and netting of on and off balance sheet exposure.

5.2. The collaterals used by the Bank as risk mitigant comprise of the financial collaterals (i.e. bank deposits, govt./postal securities, life policies, gold jewellery, units of mutual funds etc.). A detailed process of calculation of correct valuation and application of haircut thereon has been put in place by developing suitable software.

5.3. Guarantees, which are direct, explicit, irrevocable and unconditional, are taken into consideration by Bank for calculating capital requirement. Use of such guarantees for capital calculation purposes is strictly as per RBI guidelines on the subject.

5.4. Majority of financial collaterals held by the Bank are by way of own deposits and government securities, which do not have any issue in realization. As such, there is no risk concentration on account of nature of collaterals.

(ii) Quantitative Disclosures

Risk Category	30.09.2021
i) Interest Rate Risk	25097.66
ii) Foreign Exchange Risk (including Gold)	270.00
iii) Equity Risk	16532.45
iv) CDS	0.37
iv) Total capital charge for market risks under Standardized duration approach (i + ii + iii)	41900.48

Table DF-8: Operational Risk

As per RBI directives, the bank has been maintaining capital for operational risk under Basic Indicator approach (BIA) w.e.f. 31.03.2008. The capital requirement as per **Basic Indicator Approach (BIA)** is **Rs. 56,593.71** Millions as on **30.09.2021**.

Table DF-9: Interest Rate Risk in the Banking Book (IRRBB)

(i) Qualitative Disclosures:

9.1 The interest rate risk arises due to fluctuating interest rates on rate sensitive assets and liabilities. For earning perspective, Traditional Gap Analysis (TGA) and for economic value perspective, Duration Gap Analysis (DGA) is carried out to assess the interest rate risk at monthly intervals on both trading book and banking book for domestic and overseas operations, as per RBI guidelines. As per ALM Policy, prudential limits have been fixed for impact on Net Interest Income (NII), Net Interest Margin (NIM), Duration gap and Market Value of Equity for the bank. Moreover, behavioral studies are also being done for assessing and apportioning volatile and core portion of various non-maturity products of both assets and liabilities.

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

Earning Approach

Since, in case of banks, interest income comprises major part of the income, a standardized rate shock analysis for upward or downward rate movement on the Gap statement is done. Accordingly, Earning at Risk (EaR) for different rate shocks is done to assess the impact on Net Interest Income (NII) of the bank due to adverse movement of rate of interest.

9.2 Economic Value Approach

The economic value approach involves analyzing the impact on the capital funds due to change in interest rate by 200 bps using Duration gap Approach. It assesses the intrinsic values of assets and liabilities from time to time thereby improving banks insight into the profile of assets and liabilities vis-a vis contractual rate and market rate. As a prudential measure, a limit has been fixed for net duration gap of the assets and liabilities and the same is monitored at regular interval.

Quantitative Disclosures:

Earning at Risk: The table reveals the impact of 50 bps adverse change in interest rate on NII as at 30.09.2021.

Change in interest rate	Estimated impact on NII due to adverse change in rate of interest up to 1 year
50 bps	Rs. 9604.56 Million

Economic Value of Equity: The table reveals the impact on Economic Value of Equity for an assumed rate shock of 200 bps on the banking book as at 30.09.2021.

Change in Economic value of Equity	200 bps
	Rs. 53773.01 Million

*Excluding the impact on Subsidiaries where prevailing rate of interest is approximately 4%

Table DF-10: General Disclosure for Exposures Related to Counterparty Credit Risk

(i) Qualitative Disclosures:

(a)

The Bank uses derivatives products for hedging its own balance sheet items as well as for trading purposes. The risk management of derivative operation is headed by a senior executive, who reports to top management, independent of the line functions. Trading positions are marked to market on daily basis.

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

The derivative policy is framed by Integrated Risk Management Division, which includes measurement of credit risk and market risk.

The hedge transactions are undertaken for balance sheet management. Proper system for reporting and monitoring of risks are in place. Policy for hedging and processes for monitoring the same is in place.

Accounting policy for recording hedge and non-hedge transactions are in place, which includes recognition of income, premiums and discounts.

Valuation of outstanding contracts, provisioning, collateral and credit risk mitigation are being done.

(ii) Quantitative Disclosures:

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021
QUALITATIVE DISCLOSURE ON LIQUIDITY COVERAGE RATIO

The bank has implemented RBI guidelines on Liquidity Coverage Ratio (LCR) from 1st January 2015.

The LCR standard aims to ensure that a bank maintains an adequate level of unencumbered High Quality Liquid Assets (HQLAs) that can be readily converted into cash at little/no loss of value to meet its liquidity needs for a 30 calendar day time horizon under a liquidity stress scenario.

LCR has two components:

- i. The value of the stock of High Quality Liquid Assets (HQLA)–*The Numerator*.
- ii. Total Net Cash Outflows: Total expected cash outflows minus Total expected cash inflows, in stress scenario, for the subsequent 30 calendar days - *The denominator*.

Definition of LCR:

Stock of high quality liquid assets (HQLAs) ≥ 100% (w.e.f 01.04.2021)

Total net cash outflows over the next 30 calendar days

The LCR requirement has become binding on the banks with the following minimum required level as per the time-line given below:

	Jan 1, 2015	Jan 1, 2016	Jan 1, 2017	Jan 1, 2018	Jan 1, 2019
Minimum LCR	60%	70%	80%	90%	100%

For Q2 FY'2021-22, the daily average LCR was 198.54% (based on simple average of daily observations) at consolidated level, as against the regulatory requirement of 100%.

The main drivers of LCR of the bank are High Quality Liquid Assets (HQLAs) to meet liquidity needs of the bank at all times and basic funding from retail and small business customers. The retail and small business customer's contribute about 72.15% of total deposit portfolio of the bank which attracts low run-off factor of 5/10% as on 30.09.2021.

Composition of High Quality Liquid Assets (HQLA)

HQLAs comprises of Level 1 and Level 2 assets. Level 2 assets are further divided into Level 2A and Level 2B assets, keeping in view their marketability and price volatility.

Level-1 assets are those assets which are highly liquid. For quarter ended September 30, 2021, the Level-1 asset of the bank includes Cash in Hand, Excess CRR, Government Securities in excess of minimum SLR, Marketable securities issued or

PUNJAB NATIONAL BANK

For the Qtr ended 30.09.2021

guaranteed by foreign sovereign, MSF and FALLCR totalling to Rs. 338457.79 cr (based on simple average of daily observations).

Level-2A & 2B assets are those assets which are less liquid and their weighted amount comes to Rs. 8943.52 cr (based on simple average of daily observations). Break-up of daily observation Average HQLA during quarter ended September 30, 2021 is given hereunder:

High Quality Liquid Assets (HQLAs)	Average %age contribution to HQLA
Level 1 Assets	
Cash in hand	0.93%
Excess CRR balance	0.45%
Government Securities in excess of minimum SLR requirement	39.36%
Government securities within the mandatory SLR requirement, to the extent allowed by RBI under MSF (presently to the extent of 3 per cent of NDTL)	9.37%
Marketable securities issued or guaranteed by foreign sovereigns having 0% risk-weight under Basel II Standardized Approach	0.48%
Facility to avail Liquidity for Liquidity Coverage Ratio – FALLCR (presently to the extent of 15 per cent of NDTL)	46.84%
Total Level 1 Assets	97.43%
Total Level 2A Assets	2.44%
Total Level 2B Assets	0.13%
Total Stock of HQLAs	100.00%

Concentration of Funding Sources

This metric includes those sources of funding, whose withdrawal could trigger liquidity risks. It aims to address the funding concentration of bank by monitoring its funding requirement from each significant counterparty and each significant product/ instrument. As per RBI guidelines, a "significant counterparty/Instrument/product" is defined as a single counterparty/Instrument/product or group of connected or affiliated counterparties accounting in aggregate for more than 1% of the bank's total liabilities.

The bank has no significant counterparty (deposits/borrowings) as at 30.09.2021. Top 20 depositors of the bank constitute 3.44% of bank's total Deposit as at September 30, 2021. The significant product/ instrument include Saving Fund, Current deposit, Core Term Deposit and DRI deposit the funding from which are widely spread and cannot create concentration risk for the bank.

Derivative exposure

The bank has low exposure in derivatives having negligible impact on its liquidity position.

PUNJAB NATIONAL BANK
Pillar 3 Disclosures under Basel III Framework
For the Qtr ended 30.09.2021

Currency Mismatch

As per RBI guidelines, a currency is considered as “significant” if the aggregate liabilities denominated in that currency amount to 5 per cent or more of the bank’s total liabilities. In our case, only USD (15.06 % of bank’s total liabilities) falls in this criteria whose impact on total outflows in LCR horizon can be managed easily as the impact is not large considering the size of balance sheet of the bank.

Degree of centralization of liquidity management and interaction between group’s units

The group entities are managing liquidity on their own. However, the bank has put in place a group-wide contingency funding plan to take care of liquidity requirement of the group as a whole in the stress period.

		sector is not diluted.
		For the purpose of these guidelines, a non-viable bank will be a bank which, owing to its financial and other difficulties, may no longer remain a going concern on its own in the opinion of the Reserve Bank of India unless appropriate measures are taken to revive its operations and thus, enable it to continue as a going concern. The difficulties faced by a bank should be such that these are likely to result in financial losses and raising the Common Equity Tier 1 capital of the bank should be considered as the most appropriate way to prevent the bank from turning non-viable. Such measures may include permanent write off of the Bonds in combination with or without other measures as considered appropriate by the Reserve Bank of India. In rare situations, a bank may also become non-viable due to non-financial problems, such as conduct of affairs of the bank in a manner which is detrimental to the interest of depositors, serious corporate governance issues, etc. In such situations raising capital is not considered a part of the solution and therefore, may not attract provisions of this framework.
